

## **Smart Tool Locator(STL)** **Now available on DURMA Press Brakes**

To reduce installation times and improve productivity **DURMA** Press Brakes starts using Smart Tool Locator(STL)

Over 80 years Wila has been focused on developing its support systems to improve productivity on Press Brakes. With its innovations on tool clamping system Wila now developed STL with partnership of **DURMA** and Delem Control units.

### **Features**

#### **The Smart Tool Locator® (STL)**

The Smart Tool Locator(STL) currently the best innovation to improve productivity on the Press Brakes. With its Smart LED pointer system, it indicates where to place the tools and allows rapid, precise and easy bendings. The Smart Tool Locator(STL) provides efficiency with its improved speed and high precision on Press Brakes

- Fast installation times
- Reduced margin of error
- LED (visual sequence)
- Hydraulic and mechanic compression
- Correction on local deflection
